**Louisa L. Smith : A New Twist on Strips 'n Curves** before purchasing it in order to gage whether or not it would be worth my time, and all praised A New Twist on Strips 'n Curves:

0 of 0 people found the following review helpful. Nice addition to my library By NonnaB Beautiful ideas even if I never actually use the techniques in a quilt. Eventually I'll get around to reading it. For now it's just nice to look. 0 of 0 people found the following review helpful. I love this book.... By Notatroll Terrific quilting book with lots ideas on convergence, and strip piecing and color schema. It is so loaded with projects and information that I am still just reading it and deciding what I might try. I would definitely by this book as a beginning quilter as the strip piecing is very easy and can be combined in blocks with applique right from the start. These points do not require points to match and do not require a frustrating amount of accuracy. The results are very beautiful, organic quilts that can showcase a quilter's use of color choice and fabric selection. When you advance there are harder projects with curved piecing and lots of intricacy. Well worth the wonderful price I paid for it from the bookseller that discounted it. 1 of 1

people found the following review helpful. New Twist on Strips n Curves did have cover damageBy grundymurfAs a used book there is the chance of damage and I'm good with it. I knew I'd like the book content having ordered after seeing a friend's copy. 3 stars is for condition but the service was great, arrived timely

About the AuthorLouisa was born in Indonesia and educated in the Netherlands, and she came to the United States in 1960. Although her quilting started with a traditional approach, soon new and exciting designs took over, and the traditional gave way to more innovative work. The incredible flexibility that fiber offers attracted her to "paint" with fabrics. She enjoys collaborating on new designs with her daughter Lisa, a graphic artist who shares her mother's love of quilting. Louisa resides in Loveland, Colorado, with her husband and mother.
