Very cute!By Victoria G.These are just too cute not to have in your quilting library. I've not made any of the blocks yet, but who knows when I will want to make something with an animal? There are so many to choose from in this book, that it is a must have if you ever make quilts for children. There are even a lot of animals that would make beautiful quilts for adults too, depending on the fabric you use. The motifs are all fairly small, so they would also fit very well on hot pads, aprons, etc.0 of 0 people found the following review helpful. Five StarsBy cathy p.gift

Originally published by Martingale in [1997], this is a fresher revitalised version of a clever title from the same publisher's imprint, That Patchwork Place. Margaret Rolfe is a veteran Australian quilter and her clever interpretations of animals using foundation piecing are testament to her wealth of experience. The main feature of the book is the foundation-pieced animals, although there is advice on quilt-making basics and designing with the blocks, as well as pre-designed quilts and a gallery of the blocks to the rear of the book which is great for inspiration. With over fifty designs to make, Margaret has provided an animal block for all occasions, and the opportunity for more ambitious makers to make five themed quilts: "Ark Quilt", "Farm Quilt", "Zoo Quilt", "North American Animals Quilt" and "Australian Animals Quilt". This is the perfect title for those who really want to get stuck into foundation piecing and make some really fun gifts at the same time! --Popular Patchwork, April 2014
