Linda Burgess, Susan Conder : A Sense of the Country: A Seasonal Guide to Decorating Your Home With Flowers, Fruits and Natural Objects before purchasing it in order to gage whether or not it would be worth my time, and all praised A Sense of the Country: A Seasonal Guide to Decorating Your Home With Flowers, Fruits and Natural Objects:

0 of 0 people found the following review helpful. Not What I ThoughtBy Gayle FergusonThe cover of this book is so pretty, and I love to do floral arrangements and groupings that I thought it would be a book full of ideas. There are some pretty pictures in it, but it is not the book that I thought I would be buying. I was looking for rooms of ideas to do floral displays, not one picture of a bowl in a window next to a vase.It does tell in great detail about color grouping your objects artfully.If you need that information,it might help you.But for a hands on floral book, don't buy.

Divided into eight sections according to the seasons, with each season divided into early and late, this book covers indoor and outdoor plants, vegetables and fruits, and explores the best partnerships between plants and objects.
