Maggie Bonanomi and her latest book By delanolady This book is very like some of her others; I still love all of her books very much; I am considering doing a hooked rug out of this one. I enjoy her products and consider her books a must have for anyone who enjoys primitive rugs, quilts, and other projects. The directions are clear and well written. She is a very gifted person. 4 of 4 people found the following review helpful. Maggie's Best Yet By Kathleen Bonnes All Maggie's books are wonderful but I think I like the projects in this one best of all. It's sort of like choosing between chocolate candy and homemade cookies. How do you make a

choice?2 of 2 people found the following review helpful. LovelyBy SallyWonderful book for the primitive lover crafter. You can use this as a great reference book and create to your hearts' content.

Take part in primitive artist Maggie Bonanomi s latest adventures, reflected in 18 fresh projects. Since we last met, she s traveled extensively, moved into new studio space and survived life changes. All this has influenced her work you ll find the grays of early springtime in Paris in a new rug and vivid, rain-drenched colors of a walk through the woods in an applique project. A wait for the birth of a grandchild inspired more projects. Other projects include a wool sampler, pillows, a quilted bedcover and paper pictures.

About the AuthorMaggie Bonanomi designs, teaches and owns a shop, the Purple Turnip, in Lexington, Mo. She lives with her husband in an 1840s house in Lexington and has two married daughters.
