It is a very well done book, great images and nicely sized for a great price. So why not 5 out of 5 you might ask?Well, to be honest I got this book at the same time as the Art of Top Cow. I have to admit loving hard covers over soft cover books (a personal preference) but overall many of the Witchblade images in this book are in the Art of Top Cow. While not all of them are (as this book is solely Witchblade) several what I consider Key images are not present in this book (but are in TAOTC book).I really like this book, but if you have to pick and choose, I'd recommend the Art of Top Cow over this one (I bought the Hardcover version of that one fyi).PS: This book is dedicated to the late great Michael Turner whose art takes center stage as it should as he was one of the Witchblade's Co-Creators.0 of 0 people found the following review helpful.
