Janet Takahashi : Artful Journals: Making Embellishing Memory Books, Garden Diaries Travel Albums before purchasing it in order to gage whether or not it would be worth my time, and all praised Artful Journals: Making Embellishing Memory Books, Garden Diaries Travel Albums:

0 of 0 people found the following review helpful. Ok depending on what you want. By Talindar This book may be useful depending on your goals. If you are looking for ideas on how to actually bind various kinds of books together its not bad. There are several interesting ideas. The instructions are somewhat sparse. There are places where more detail or additional picture would be useful. I did feel some of the journal types were pointless - buy a blank book and decorate the cover with torn paper? Why? There are many very attractive blank books available for sale. Other ideas on including pouches and envelopes to store small items were good. If you are looking for information on how to get started art journaling - this is NOT the book. It has nothing about the art journaling process, only journal binding ideas. 0 of 0 people found the following review helpful. Wonderful! By Timothy S Koons Janet has a true gift in this book. I checked it out of our library and after the third time of renewing it, knew I just had to buy it. It's helped me

make gifts and has helped me, help others to create books, drawings and beautiful penmanship. I am truly thankful she took the time to put together this item. It's almost like owning your own personal workshop in a book. She truly walks you through each of the steps to create your own special memory book. 0 of 0 people found the following review helpful. Great for travel journals !By LindaJanet has great ideas, very useful.

We all have thoughts, feelings and experiences that we want to preserve forever - and a journal makes the perfect keepsake. This inspiration-packed guide, with beautiful watercolour illustrations throughout, offers a wealth of creative ideas for creating attractive journals from scratch, as well as embellishing store-bought ones. The 21 creative projects range from a seasonal journal that features stunning handmade papers decorated with natural items (such as twigs and leaves) to a lovely book made from travel postcards that opens like a fan. Other exquisite suggestions include an accordion-style booklet for memorable quotes, a romantic journal and a sweet little spiral-bound book for collecting favourite recipes.

About the AuthorJanet teaches calligraphy and art at Santa Monica College/ Emeritus College in America and continues to do private commissions and calligraphy for companies such as Tiffany Co.
