Lots of art tips and inspiration.1 of 1 people found the following review helpful. Perfect kid+mom art intro!By AnneI love art but never did a ton at home as a kid. When I ordered this book, I had basically no clue how to do anything of what she wrote about (including basic skills) and all

the specific tips on exactly what to buy and how to execute different techniques were a lifesaver. My almost 3 yr old son and I have been working on our own take of the elephant project all summer and have been having so much fun. I have him make the base of paper for the collage and we both have been painting and cutting paper together. We've just been doing it on the back of a cardboard box thanks to the gesso. We're still far from pros but love what we've been able to do thanks to this book!3 of 3 people found the following review helpful. We have had the great fortune of participating in Jennifer McCully's ARTAGEOUS art camps ...By Cynthia MorrellWe have had the great fortune of participating in Jennifer McCully's ARTAGEOUS art camps and many of these projects are displayed in our home. Her visually delightful designs are artfully presented in the book, along with very easy to understand instructions and suggestions. You can see the template she provides and the infinite variations the final project can encompass so each project is as individual as the artist.I love how the whimsy of the book design and illustrations entice the eye, and yet the required direction necessary for a "do it yourself" book is pleasantly complimentary. I would recommend this book to many including the home-school moms and "what do we do now, mom?" families that hope to pry their children away from the ever in-crouching technology.
