**From Brand: Laughing Elephant : Baby's Own Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Baby's Own Book:

1 of 1 people found the following review helpful. aborable bookBy Carla BrownThis is the perfect baby book. I was give the girl version for my daughter and I loved it so I purchased the boy version for our newest addition! I love the vintage feel to it. I get tons of compliments on the books . . I leave them in the kitchen for easy access. It's a great book for recording all of your baby's info. I especially like the immunization page. I make a record every time I get back from the dr. office.

We have published for several years a baby record book called Baby Days, and continue to do so. With this new publication we expand our baby related offerings with a less elaborate and less expensive, but no less attractive baby record book. We have included the customary milestones and information--first bath, measurements, first birthday, favorite toys, etc. The book is handsomely illustrated; included are luminaries such as Blanche Fisher Wright, Anne Anderson and Guy Hoff, as well as some lesser known artists, Busy new parents will appreciate that this baby record book is less of a chore to complete than many more complex offerings of this type, yet still a lovely keepsake. A

unique feature of both Baby's Own Book and our other new baby title, Welcome Baby, is that it is available in two versions in which the cover and decorative elements are either pink or blue. This adds another element of personalization that we hope will please buyers and recipients alike.

About the AuthorThe Blue Lantern Studio creates books and stationery from its library of books, paintings, and ephemera. It believes that images and words, properly mated, create new and powerful messages.
