5 of 5 people found the following review helpful. GREAT alternative to the traditional baby book!!!By Susan E. KaiserWhen my husband and I brought our little angel home, we were stumped to find a baby book that worked well for an adopted child. The Baby Story memory kit was the perfect solution!!! We could create the story of our daughter's adoption and include all her "baby firsts" that would be a true original. The process is so simple and you can really make a beautiful book... no matter what your skill level might be. This makes a great baby gift for anyone; because it's something the child will never out grow or get bored with. What kid doesn't love to read all about them selves?

Publish Your Memories in Baby's Very Own Keepsake Book!! This kit makes it easy to turn your memories into a personalized, archival quality book you'll treasure for a lifetime. Just layout your pictures and write the photo captions or story you want typeset on the pages provided. You can even personalize the pages with the infant related Mrs. Grossman's stickers provided, or get creative with your own. Mail in your pages and in just weeks you'll receive back an archival quality, 7" by 9", laser reproduced 15 page hardback book. Numerous options allow you to create almost any type of book up to 50 pages in length. The kit makes a great shower gift and additional (optional) book copies make terrific gifts for family and friends.
