Worth the wait AND cost!By Nancy CesaroI waited waited for this discontinued book to show up at a reasonable price.... WELL worth the wait. The pieced birds are gorgeous. The book is much larger than I expected. It has many good projects that fill the book--- although that is not why most paper piece quilters buy the patterns; it has enough good patterns to have made it worth the wait cost! WHY is this discontinued??????0 of 0 people found the following review helpful. I love paper piecing and have done several of the birdsBy BarbaraI love paper piecing and have done several of the birds; the hummingbirds are beautiful and a bit different from other paper piecing.
