I don't like it, sorryBy CustomerI thought it was another book..I don't like it, sorry27 of 27 people found the following review helpful. Coverage rather sparceBy A CustomerThe title was a little misleading..I was expecting a price guide from 1986 to 1999 but it only covers a few dolls and a lot of international makers..which we will see only a few in the US..The pictures took up most of the content and very little on the actual price guide...Disapointing to say the very least..about 500 pictures and not much else...

The Barbie Boom features information on virtually every U.S. Barbie and a sampling of the most popular foreign dolls beginning in 1986, the year Mattel released the first doll especially for adult collectors. More than 400 full-color photos showcase over 800 dolls.
