Great Book, filled with information on the many varieties ...By Darrell SmithGreat Book, filled with information on the many varieties of paint, and application techniques. (Air Brush, paint brush, Decal Application, etc.) Certainly the book covers locomotives and rolling stock, but once you understand those principles, you can now move on to weathering buildings. automobiles (Rust on truck fenders, etc...). I will definitely keep this book on the top of my reference materials.0 of 0 people found the following review helpful.

another great weathering book By rodney j johnson jr, arvada, colorado model railroad weathering books may seem the same, but they are not. the authors have different perspectives, ideas and there are changes in the hobby so you have to realise they are not all the same, but they ARE all useful. i have yet to come across a bad m.r. oriented book. 0 of 0 people found the following review helpful. Very clear and a great deal of useful information both on what paints/weathering materials ... By Old Tim I found this book to be an exceptional introduction of the subject. Very clear and a great deal of useful information both on what paints/weathering materials and brushes as well as how to do it. Like all of Jeff Wilson's books, I highly recommend it.

Any modeler who wants to paint, decal, or weather locomotives, rolling stock and structures will find plenty of in-depth, how-to techniques in this updated edition! New prototype photos, current manufacturers, and the latest products are featured along with several new projects that include making your own decals with an inkjet printer and a multi-color painting project for a locomotive. Contains basic-through-advanced techniques for airbrushing, brush-painting, decaling, and weathering. Includes tips on how to add graffiti, placards, and other decal details. Features how-to information for using chalks, acrylic paints, and oil colors.

About the Author Jeff Wilson has written more than 25 books on railroads and model railroading. He spent 10 years as an associate editor at Model Railroader magazine, and he currently works as a freelance writer, editor, and photographer, contributing articles to MR and other magazines. He enjoys many facets of the hobby, especially building structures and detailing locomotives, as well as photographing both real and model railroads.
