0 of 0 people found the following review helpful. That infamous book "Bass Fishing 101" has surfaced againBy Clyde E. DruryOne star because it is another copy of that old, old eBook, "Bass Fishing 101." Although I consider him a pretend-to-be author this fellow did add a small amount of text and five color photos. Have to give him credit for that I guess. There are a ton of eBook copies out there of this book, several are even free. I've been gathering up copies of

the print book and right now have 17 of the 18 titles that I have found. The 18th is one that its pretend-to-be author put a \$49 price tag on.
