I have never heard of Bethany Lowe before but I bought this book based on the fact that it was a top seller in the seasonal section. I am not disappointed. This book is fully illustrated in color with in-depth instructions, patterns and reproducible vintage Halloween pictures. Don't be misled by the cover thinking that you are going to have to make complicated witches from paper mache. There are many easy projects that will make your Halloween decor stand out from the rest!0 of 0 people found the following review helpful. I loved it so muchBy Patrice SatterfieldI saw this book years ago at my library and always wanted to do the projects. In October we made Halloween Penny Rugs and I used one of the patterns for mine, I loved it so much, that after I had to return it to the library I found this book on and decided to order one, and I am very happy with it and continue to refer to the pictures and pattern to finish my penny rug8 of 8 people found the following review helpful. For Bethany Lowe fansBy Rainy Day ReaderIf you are a fan of B. Lowe and love crafting then this book may be for you. I was looking for some inspiration and bought this little book hoping it would help, and it lived up to my hopes and expectations. The book is full of vintage graphics to be photocopied for the projects and the projects are cute and whimsical as to be expected from Bethany. I am totally pleased with with this purchase and hope she comes out with similar offerings for other holidays.

Haunted lights and spooky sights, ghoulish glowing luminaries, frightful festoons: what fun! Halloween has become one of the most popular holidays of the year, with legions of would-be creepy creatures on the lookout for fantastic ideas. And the newest craze is to go old-fashioned, with charmingly nostalgic folk-style costumes, decorations, and other accessories. No one does that better than designer Bethany Lowe in this, the very first book to focus solely on folk art projects for Halloween. She gets into the spirit of the season with 30 sensational projects that range from trick-or-treat cones to a crazy quilt pumpkin pillow. Invite friends to a Halloween party with an alluring invitation made from vintage illustrations, and then have guests don delightful crepe paper hats and tassel masks. Deck the chairs with howling black cats, and swathe the walls and ceilings with flying bats. All the items are photographed in home settings, making you feel as if you're part of Bethany's Halloween thrills and chills.
