**From n/a : Better Homes and Gardens Complete Guide to Quilting** before purchasing it in order to gage whether or not it would be worth my time, and all praised Better Homes and Gardens Complete Guide to Quilting:

6 of 6 people found the following review helpful. Treasure Trove of information.By M. vdZwanThis book has quite a few techniques for both hand sewing and machine sewing. Many of the techniques have links to videos on-line so that you can see what they're talking about. Definitely good for a beginning to intermediate quilter, and I'd think even an advanced quilter may find a tip or two here as well. It covers tools of the trade, piecing, applique, making your "quilt sandwich", and actually quilting the unit, with multiple techniques for each step of the way.I can definitely see using it as a reference book when starting a new project.3 of 3 people found the following review helpful. A good gift for a novice getting started because every topic ...By Little Big PonyI found this book to be very general and too basic for the price, even the "used" price. A good gift for a novice getting started because every topic seems to be an overview. Nice glossy photos, organization, spiral binding, and some starter projects but more books (or magazine subscriptions...) will be needed. There is also zero source information on tools, even though a lot are mentioned and shown in the photos, and no commitment to what works best. There are a lot of really good quilting books out there by designers for less and even better "free" information available on the internet from quilting blogs. Will be donating this pretty book to my church library.7 of 7 people found the following review helpful. Really well-written complete guide!By R. NeighborsThis is one of the most complete and helpful collection of information on quilting I have seen. The information is straight and to the point, complete, and well illustrated.

With more than 750 step-by-step color photographs of quilting techniques, dozens of tips and extensive troubleshooting advice!
