0 of 0 people found the following review helpful. Great patterns, good instructionsBy michael bloomquistGreat patterns, good instructions. It's missing instructions for the dump truck (hooked to the wrecker), but it's easy enough to see how you could recreate the dump bucket and swap it out for the crane on the wrecker. Makes me miss the days when BHG Wood published a lot of these good woodworking books0 of 0 people found the following review helpful. I know he liked it. Shipping was fastBy Mary A NadeauBought for our son who does woodworking. He wanted to do projects for his children. I know he liked it. Shipping was fast!0 of 0 people found the following review helpful. If you're looking for reasonably easy patterns, don't get this bookBy susanIf you're looking for reasonably easy patterns, don't get this book. I've been woodworking for many years and these are not toys that I could build in a day or two. There are other much better books available.

Fast fun for the entire family! This delightful collection of 24 projects features step-by-step instructions, exploded

diagrams, and full-size patterns for almost every project. Full-color photos of the finished project plus how-to photos.
