6 of 6 people found the following review helpful. Too great!By Kate MadsenA fun and unique coloring book! Hand drawn pictures with a witty and wonderfully twisted sense of humor. Artist has a great knack for small details that are absolutely hysterical. It's do refreshing to have a coloring book that is entirely original and brilliantly clever.1 of 1 people found the following review helpful. totally amazingBy StarwarsloverThis coloring book is one of my favorites

and the artist is amazing to talk with. I feel as if he crawls into my head and pulls pictures out. I am a homeschooling, sahm of 5 kids and my brain is constantly how he draws. I feel as if every fairytale goes nuts and there are always a lot of kids and messes everywhere. The paper this is done on it amazing. I love that it's one sided so i can use sharpies and pens not just pencils.. The binding is easy to open and keep open. I can't wait to color in this soon. I have been so swamped I haven't yet but I will be soon. Wonderful book and I can't wait to see where he goes from here. I am so glad to see a coloring book that isn't all nature, people, mandalas or the normal things. LOve it so much :)4 of 4 people found the following review helpful. Great spin on classic fairytales!
