This book is truly a "big book" on beading in ONE source @ a much less expensive price than ONE being magazine or other book. Excellent illustrations, instructions, and color pictures. Wish I'd had it when first began to make jewelry other beading crafts. Book is huge w/over 500 pages; you'll grow into it. Worth it because of its inclusiveness. Recommend purchase hard

Since I already owned a copy of this book that had been misplaced, I knew that the book was awesome. What I did not expect was the great condition the book was in for such an amazing price. The book arrived in a very short time and I am completely satisfied. Wouldn't you know that after the book arrived I found my other copy. That's fine. I just shared the new one with my best beading friend. So now TWO of us are happy!!
