First she put a very big picture of the final product, then she provides the list of supplies including the formula, measurements, temperature, all that you need in the most perfect order, very clear and beautiful pictures, a professional work. Also she shows many different ideas of candles. some of them so sophisticated, I loved the book. Other thing that call my attention, she teaches you how to mold, how to sculp the candles to form a little angel, for example. This is a detail that it is rare to find in another books. I really recommend this book, the gallery of pictures is divine. Thanks Sue, your ideas will really help in my small business.0 of 0 people found the following review helpful. Great candle bookBy J. EvrardA beginner would find this book a great starting

place for candle making. It has good instruction and great projects. It is well illustrated and has great pictures. An experienced candle maker would also find some worthwhile projects inside.0 of 0 people found the following review helpful. Three StarsBy divasrocksBo is a help for me! Thank

Candles are as popular today for the atmosphere they create in a room and can be beautiful accessories for the modern home. Making handmade candles is a popular kitchen table-top craft: they are inexpensive and enjoyable to make and require little specialized equipment. With stunning colour photographs and step-by-step instructions The Big Book of Candles includes over 40 exciting projects covering a range of techniques and materials, from dipping and hand rolling to creating moulded candles with attractive inclusions. There are also ideas for decorating candles and an exciting range of outdoor projects. From pretty star chunk candles to delicately scented coconut shells, there is something here to suit every taste. Clear step-by-step photographs and tips and variations throughout, as well as galleries of candles designs make this the ideal candlemaking book for beginners, as well as a source of fresh ideas for experienced candlemakers.

About the AuthorSue Heaser has extensive technical knowledge of making candles and is the author of The Encyclopedia of Candlemaking Techniques. She has published articles in Crafts Beautiful, Inspirations and Dollhouse Miniatures.
