0 of 0 people found the following review helpful. Third Grade ReaderBy DanThis is pre-beginner, elementary level. Publishing format is cheap with paragraph headers disconnected from subject matter. Three pictures in the book and they don't match descriptions. Basically, a book of definitions that fall way short of Being "The Ultimate User Guide." Best two pieces of information in the book are - don't heat galvanized steel and don't burn yourself.0 of 0 people found the following review helpful.
