I have tried using wire however found myself getting too frustrated so I decided to back up and start from the beginning as is how we generally learn things instead of starting at the middle as wire is harder to control at times when making some patterns. I highly recommend this book for those whom are interested in patterns and in achieving new patterns and new ways of making old things and new things. In my head I can see dresses made like this as I am sure you have seen

the shoes. ;)0 of 0 people found the following review helpful. Five StarsBy CustomerSo fascinating to learn new things...Thank you so much.1 of 1 people found the following review helpful. Five StarsBy CustomerFast delivery
Awesome book.

The best-selling author of *Twist, Turn Tie* 50 Japanese Kumihimo Braids first taught us how to create stunning cord jewelry with a round loom. This time, she'll teach you how to make stunning kumihimo braided friendship bracelets, jewelry, and fashion accessories with the square loom. In the pages of this book, you'll find: 50 flat braiding projects, including friendship bracelets, shoelaces, bag handles, jewelry, watch straps and more. A kumihimo square braiding loom to remove and practice on. Specially-drawn graphics, detailed instructions, tools, and materials needed for success. Clear, annotated illustrations and photographs of the completed project. Projects that start out simple and increase in complexity, offering beginners and more advanced braiders the chance to broaden their skills and creativity. Crafters will also find plenty of ways to experiment with colors and textures, finish projects with clasps, decorative loops, tassels, and more. It's a must-have guide for tweens, teens, and adults who love making their own handcrafted jewelry.

About the Author Beth Kemp's background is in the premium jewelry industry. Ten years ago, her love of textiles and beading led her to Kumihimo. She is passionate about this art form and loves sharing her knowledge with braiders worldwide through her online store, Braid Bead Studio, and her Facebook pages dedicated to Kumihimo.
