0 of 0 people found the following review helpful. Loved itBy J.F.Despite lighting 10-20 candles every night (I try to not use artificial light after dark), I never thought to make my own candles beforeI actually came across this book whilst looking for projects to keep my young nieces and nephews happy whilst they were visiting. Time will tell as to whether they're interested, but it's definitely something that I will keep doingIt's all very straightforward and easy to follow, just enough to get you started but so much to be confusingNice little resource to have, pretty sure the kids will love it too0 of 0 people found the following review helpful. Handy Dandy Candle Making GuideBy William CI recall making candles in art class many years ago and found this book very helpful in re-learning the process. The author does a nice job of laying out the basics of candle making and gives you many alternate methods for doing so including Paraffin, Soy Beeswax. You will also find handy info on the tools and equipment you will need to get started. There are also a number of easy to follow recipes you can use as presented or mix and match ingredients to come up with your own designs.0 of 0 people found the following review helpful. Really easy to followBy Eilin CabuttoI was looking for a project to do with my kids, over the weekend and I came across this book. This guide was really easy to follow we were really pleased with our first attempt. My kids love to mix and match their ingredients. This is a super beginners guide with some more advanced projects for you try as you gain more confidence.
