M Bear : How to Make Wooden Soap Molds: Without Sawing a Single Piece of Wood! before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Make Wooden Soap Molds: Without Sawing a Single Piece of Wood!:

0 of 0 people found the following review helpful. Great easy steps for a DIY inclined soaperBy BThis book is concise. Very simple, clear instructions and step by step with images. This book guided me visually into HOW to make my own mold.If you want a simple hassle free tutorial, this book is for you.WARNING: This tutorial requires basic common sense such as the simple knowledge that wood does not cut itself. And at some point if you decide you want to make one of these molds, the wood will have to be cut by someone if you don't want to cut it yourself.The author is thoughtful in providing options for different sizes of molds per batch, gives options for a taller mold, shows step by

step how to line mold with one piece of freezer paper that can possibly be reused if making same batch. Author also gives formula to recalculate your recipe size to fit your new mold. All this put together adds value to this tiny book. 4 of 4 people found the following review helpful. SO FREAKING *AWESOME*!!! (I could cry. Seriously. I could....) By Miki Odendahl... But I'm too tired from soaping. I read this last week on a friend's phone in less than a half-hour, took copious notes, then went to the hardware store and dropped a Benjamin on a pile of boards and some pretty brass screws and handles, made 20 extra tall boxes, and then bought a copy of this kindle edition before bed at the end of a long soaping day just to say *THANK* *YOU* for the most simple, straight-forward soap box building instructions around!!! I saved well over a thousand dollars in my business this week, as well as weeks of production time thanks to you, Mindi Bear. I was able to produce more volume at a fraction of the time/cost than ever before, which means that (for once!) I'm ready for the holiday craft sales *before* they start! WOOOHOOO!!! I thank you, my *husband* thanks you, and my business benefits. Thanks for this wonderful, *SIMPLE* tutorial. Best \$5 I've spent in a long while. 4 of 4 people found the following review helpful. Great Info On Making Molds! By Patty The info on making the different size molds is invaluable along with how to line them with one piece of paper! The only thing I would include are instructions on how to use the soap calculator efficiently - it can be confusing to navigate for newbies. I would love to see more explanation on the how and why of deciding the percentages of base oils in a recipe - I've seen percentages of oils anywhere between 53 ounces to 62 in a 5lb recipe but no explanation as to how that was decided on.

Are you tired of spending \$40, \$50...even \$60 or more for wooden soap molds? Now you can make professional looking wooden soap molds for cold process soap for a fraction of the price you are spending now! And without needing to saw a single piece of wood! The secret is knowing what to buy at the home improvement store! Do you know you can assemble soap molds if you only had some simple, easy-to-follow instructions with exact measurements to guide you? Do you craft soaps with lots of whipped peaks on top, only to have them crushed by soap mold lids that aren't high enough? Do you want to spend less money on soap molds and more money on fancy oils and butters? Are you tired of overpaying professional woodworkers for soap molds that take less than an hour to put together? Nevermind the ridiculous price of shipping them to you. If you answered YES! to any of these questions, then "How to Make Wooden Soap Molds" will help you save time and money. How would you like to know exactly how to make wooden soap molds, without sawing a single piece of wood, and needing nothing more than common household tools? Here's what you will learn inside: What type of wood to use - Since saponification results in very high temperatures, you need a wood that will withstand these temperatures without warping, bowing or degrading. What size wood to buy - Don't be overwhelmed when purchasing your wood, I will tell you exactly what width and depth to buy for your wooden soap molds. Exact dimensions of each piece of wood needed - Depending on what size mold you need, I tell you exactly how long each piece of wood should be. Complete, step-by-step instructions for making a wooden soap mold - Easy, foolproof method to constructing a wooden soap mold. Just follow the diagrams and instructions. Easy to read diagrams and sketches tell you exactly where to drill - Never a missed drill hole, just measure to the proper placement, mark with a pencil and start drilling. How to make any size mold, from 2 pound to 10 pound - From the beginner hobbyist to the full-time soap maker, you can make any size soap mold to accompany your needs. Full color photos for every step - Shows you every detail you need to assemble your wooden soap mold perfectly. How to make standard size soap mold, as well as extra-high soap molds for those coveted whipped peak soaps - Never have crushed whipped peaks again! With my extra high sided soap mold, it gives you plenty of clearance to play up your soaps to your desire! How to line your finished wooden soap mold - What's the use of a wooden soap mold if you can't line it correctly. Here I demonstrate an easy way to line your wooden soap mold for crease-free soap. What material to use to line your soap mold with for wrinkle-free soap (Hint: It's NOT parchment paper) - Learn what material to use to produce wrinkle-free soap every time! It's available in most major grocery and discount stores. How to figure the amount of oils needed per recipe for your soap mold Don't be flabbergasted with trying to figure out how much oil you need per soap mold. My easy formula calculates everything for you. An easy-to-calculate formula to use for any size soap mold - If you have a square, slab or irregular soap mold, use this formula for calculating how much oil you need per soap recipe. Link to the most user-friendly Soap Recipe Calculator on the web - If you aren't already utilizing this useful resource... you should be! And much more!
