Crystal clear instructions for a beautiful designBy Staysail11This book provided clear instructions for what I wanted to learn how to do that couldn't be found anywhere else. I'm a scientist so I can really appreciate the care that the author took to communicate instructions clearly, completely, and exactly. Through this book, I can now tie dye a design I admired so much and had no idea how to accomplish. Was able to successfully follow on the first try and I am very new to tie dyeing. Great job on the book and thanks for sharing your hard earned knowledge1 of 1 people found the following review helpful. Just want you need for those harder designsBy J.D.SWe have a tie dye shop and my wife wanted to try new patterns, this book was just what she was looking for. Lots of pictures, in depth, how to instruction.0 of 0 people found the following review helpful. Three StarsBy peacelizardHard to follow

Detailed step by step instruction on how to tie and dye Stars. Does not cover dye mixing. That will be Book 1--to

come out soon.

About the Author Thirty-two years of tie-dye experimentation--it really wasn't a plan; it just happened that way. I always wanted to be an artist, but mostly thought of tie-dye as a way to make a living until they converged. I now live in Tennessee with my son George and our two cats--Weezer and Mini.
