It has some clever ideas, but fall short of being a fantastic resource. I have all of her Zentangle books and have learned their are others that are better. There are also better, more details art journaling books. It's a bit longer than her Zentangle books, but I'm sure that adds much to its actual content. I'd check it out at the library before purchasing. If your are into art journaling, you are probably past what is presented in this book.8 of 8 people found the following review helpful. Great examples and ideas to get you startedBy KokopelliThis book is filled with amazing ideas and examples. If you are attempting an art journal or taking Oprah's and Bene Brown's course and are stumped for how to begin, this will definitely give you a running start. Definitely worth the money for those who need a little extra shove.6 of 6 people found the following review helpful. Book ReviewBy

MarionI absolutely LOVE this book. It's just what I was hoping it would be. It is filled with great ideas and inspiration for sketch journaling. A great addition to my art book collection.
