Five StarsBy Normanice1 of 1 people found the following review helpful. A beautiful book! Lots of good pictures with clear instructionsBy Kevin MulhallA beautiful book! Lots of good pictures with clear instructions. I was hoping for even more simplified ikebana instructions that I could use with children age 6-8 but I think this is a book more suited for teens and clueless adults like me! That's OK, I was still able to get inspiration from the photos and instructions and give a simpler lesson to the children. This is the only children's ikebana book, in English, that I know of. Children really appreciate beauty. The kids in my class really enjoyed learning about creating beauty through ikebana. I found this book very helpful.
