Jody Revenson : IncrediBuilds: Fantastic Beasts and Where to Find Them: Swooping Evil Deluxe Book and Model Set before purchasing it in order to gage whether or not it would be worth my time, and all praised IncrediBuilds: Fantastic Beasts and Where to Find Them: Swooping Evil Deluxe Book and Model Set:

3 of 3 people found the following review helpful. Great model!By Teresa B.My daughter got this as a Christmas gift and once started, it was done in just a few hours. It's mostly easy to assemble, a few tricky parts here and there, like the first pieces of armor look like they're supposed to go on the the back of the neck but actually go on the back of the head, a few pieces seem to be right-left flipped in the instructions but that's a fairly simple thing to figure out, if it doesn't fit where it looks like it should, try the other side. The third belly piece is fragile, press a little too hard and it can break, we're hoping to get a replacement piece. It's a nice model, even in plain wood it looks very nice when

completed. My daughter wished that the wings were patterned on both sides so that the back of the wings matched the armored back, but this could pose a problem in the instructions as you depend on the pattern to know how to place certain pieces. If the pieces were in numerical order it would make finding them much easier, but this was no big deal. It would have been very nice for the instruction pictures to be a bit bigger, some of the detail pieces were difficult to place due to such small pictures. Strangely, there's an extra #10 piece, for why we don't know. You will be tempted to complete some pieces separately and then slide them into place, don't. It's much harder in the long run that way, do it the way the instructions say and it'll go smoothly. 1 of 1 people found the following review helpful. My 11 year old loved this and even painted it (paints not included) when ...By Kelly T BiggsMy 11 year old loved this and even painted it (paints not included) when he was done building. Required no assistance from us so he was able to do it on his own. 0 of 0 people found the following review helpful. Five StarsBy Margaret Wurtzlove it

Kids can build their own customizable model with this thrilling hardcover book and 3D wood model set from IncrediBuilds. This Fantastic Beasts and Where to Find Them themed book and wood model set brings the world of the upcoming film to life. Filled with incredible illustrations and unit photography, the guidebook provides fascinating behind-the-scenes facts about the film and the creatures from the Warner Bros. archive and includes a do-it-yourself 3D wood model of the Swooping Evil, one of the many magical creatures seen in the film. Skill Level: Intermediate

About the AuthorJody Revenson has written extensively about the Harry Potter films, with her most recent books being Harry Potter: The Character Vault, Harry Potter: Magical Places from the Films, Harry Potter: The Creature Vault, and the upcoming Harry Potter: The Artifact Vault. In her first foray into the Wizarding World, she edited and contributed to the New York Times best sellers Harry Potter: Film Wizardry (penning its updated version and App) and Harry Potter: Page to Screen.
