Stunning By jkemp beautiful subjects in grayscale to leave plain or use your imagination. Pics. on 1 side only paper thin but looks and feels wonderful. Paperback with staples that I like if I can't get perforated books. Looks like it is ocean dominated, jellies, corals, seaweeds, squid, and other organisms. Full size pages.

Twenty-four inspirational designs from nature to color. *Inspirations from Nature: An Adult Coloring Book Featuring the Illustrations of Ernst Haeckel* features twenty-four images from the great biologist to color. Printed on high-quality, uncoated paper at a generous 8 1/2" x 11", this coloring book for grownups is sure to delight coloring enthusiasts of all levels. Ernst Haeckel (1834-1915) was a very influential biologist who happened also to be a brilliant illustrator. For this exciting new coloring book for grown-ups, we have selected pictures from his *Art Forms in Nature*, the loveliest of his many great books. Haeckel was in love with symmetry, appropriate for his work as a scientist. He found the beauty in all life-forms, whether one-celled or incredibly complex and this conviction is fully revealed in these images. Most of the plates are of undersea life, including jellyfish and octopi, but whatever Haeckel show us takes us into the realm of the underlying order and t beauty of nature. These images offer both challenges and a sense of peace to colorists of all skill levels.

About the Author Ernst Haeckel (1834-1919[]) was a German scientist, philosopher and artist who, among many other great achievements, discovered, described and named thousands of new species. Greatly influenced by Charles Darwin, Haeckels theories and accomplishments went far beyond the scientific.
