Cinderella, Peter Rabbit, and Snow White among others are displayed in their own sections. each one has many images you can print out and use card making, scrapbooking etc. As with all these books the first few pages are devoted to ideas you can make using what is in the book. One of the most charming is a bulletin board in a frame for a boy's room using the Peter Rabbit images. Clever and fun!10 of 11 people found the following review helpful. Another Great Find!By Elisha GrangerI love Memories of a Lifetime clip art books and have given them raves. I love Instant Memories even more. The clip art is charming but don't be put off by my inadequate description. I couldn't find the most descriptive term. The designs are whimsical and are a wonderful additional clip art resource for fans of "follies" a la Sandra Evertson. I have "Babies," "Fairy Tales," "Family" and "Birthdays." I comb them frequently and have created very beautiful items with this clip art.1 of 1 people found the following review helpful. wonderfull fairy talesBy Cathy HI have used this book many times over. It is great. The CD cover every photo in the book.The price is very reasonable too.

Containing 57 perforated ready-to-use scrapbook pages, this collection includes a CD that contains images and is compatible with both Macs and PCs. The CD allows you to create a scrapbook inspired by fairy tales of old, share the

timelessness of the artwork, and preserve memories with the designs contained in the book.
