Travel: Ready to Use Scrapbook PagesBy Pat HarveyI didn't find it as advertised - the other books I have with "ready to use scrapbook pages" were just that. Pages with various themes with places indicated for pictures.I was very unhappy that it took the better part of a month to arrive. It came several days after it was promised. I will make a point not to purchase anything else from Three Sisters.2 of 6 people found the following review helpful. Christmas giftBy Clare GarabedianI received this book very quickly. It is a christmas gift for my daughter and I know she will love it. I have not opened the package because it is a gift.6 of 7 people found the following review helpful. Love, Love, LOVE This Book!!!By CarrieTownAs with all of the Instant Memories series, you not only get the beautiful layouts on high-quality printed pages perforated for easy use, but you also receive a CD-ROM with all of the pages and seperate elements presented as either 72 dpi or 220 dpi. If you like to create on the computer as well as tactile elements, you will LOVE these books.My favorite ones are the Anna Corba editions because they are beautiful on their own, but would work with additional elements you add. Anna Corba's quiet, elegant style continues to inspire me. As I said before, you can use each piece individually with the CD, or even cutting it out of the layout. So, even if you don't completely love the page layouts, you will not be wasting your money.

One of the first four books in the Instant Memories series. Each of these books offers 57 scrapbook pages ready for

your photographs. Simply tear them out along the perforated edge, add photographs and diary entries in the spaces provided, and you have a beautiful, vintage scrapbook page in minutes. For added value, each book comes with a CD that contains all of the images that make up each individual page. Hundreds of images at your fingertips for use in scrapbook, fabric transfer, and woodcrafts. Eight pages of gallery ideas are provided to demonstrate how the artwork can be used.
