**Richard Yelle : International Glass Art (Schiffer Art Books)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised International Glass Art (Schiffer Art Books):

The studio glass movement has truly become international, and this gorgeous book features the works of over 175 of the top known artists, such as Dan Dailey, William Morris, Linda MacNeil, Mary Shaffer, Howard Ben Tre/\*, Dale Chihuly, and Karen La Monte. Richard Yelle presents this new book to celebrate the advancements in studio glass production over the last 25 years. Essays by collectors and contemporary artists worldwide introduce the gallery of over 780 stunning color photographs. Collectors have played an important role in the developments shown, and this book honors their support of the artists, galleries, and museums that promote glass art.

About the Author Richard Yelle is the founder of UrbanGlass: New York Center for Contemporary Glass. He is also the author of Glass Art: From UrbanGlass, available from Schiffer Publishing.
