Plenty of natural poses with a variety of types of cats, I also like the color pictures, some showing several versions of the same pattern with different colored cats and backgrounds,. I would say that most patterns are geared towards artists with some experience and not for the beginner.0 of 0 people found the following review helpful. perfect addition to my collectionBy 4strengthJust as described, perfect addition to my collection.0 of 0 people found the following review helpful. Four StarsBy suztipHave not made anything out of it yet but like the book.

Cats fascinate us in everything they do. Whether they're hunting, playing, stalking, sleeping, or just staring out the window, they do it with style! And now stained glass artist Robin Anderson has captured the many facets of a cat's life in "It's a Cat's Life!" -- a stunning new collection of stained glass patterns. Now, you can create panels of cats doing what cats do best -- sleeping, bathing, playing, and, yes, staring out the window. This book offers 30 vivid, detailed, and most of all, realistic patterns of cats and kittens, featuring a variety of breeds and colorings. Celebrate the cat -- and the cat lover in you -- with "It's a Cat's Life!"
