Kaffe Fassett : Kaffe Fassett's Glorious Needlepoint before purchasing it in order to gage whether or not it would be worth my time, and all praised Kaffe Fassett's Glorious Needlepoint:

Even if you don't do needlepoint, this is a lovely bookBy Joanna D.Firstly, this is a reprint of the Glorious Needlepoint that went out of print. Not a bad thing.Secondly, if you love Victoriana, this is a great book. Kaffe Fassett is fascinated by overstuffed patterns and the huge flora of the Victorian age, plus the visual excitement of clutter and bric-a-brac. He has been able to translate his art into some very Victorian kittens, complete with sweet expressions and sugary pink bow. This design even makes my manly (but cat-loving) husband melt.29 of 30 people found the following review helpful. Wonderful but a reprintBy Peter E. OlsonThis wonderful book is simply a reprint

of a much older book by Kaffe, and the description fails to reveal this. New cover, new photo, old book.

Fassett, world-famous knitting maverick and color enthusiast, presents a sublime series of stunning designs, fiery hues, and delicious photographs....brims with a tapestry of inspiration for nature-inspired patterns. Vogue Knitting. Lavishly illustrated volume of decorative art photos and Fassets needlepoint and knitted versions. A unique source of projects in which the author demonstrates how to first see and then interpret motifs and hues. Fiberarts.
