Title is perfect for this bookBy Learning to KnitBonnie's book will keep my stash under better control, but it is going to take a long time to complete a quilt because of so many pieces.9 of 9 people found the following review helpful. Double tap pics to enlarge on Kindle FireBy NanaTo8Another great book from Bonnie Hunter. The formatting is well done and the ability to enlarge the photos adds to the convenience of having the book on my Kindle Fire. Love it.

Imagine making more than one quilt at a time while watching your stash dwindle. Sounds too good to be true, but it's not. Join Bonnie K. Hunter as she shows you how to get your scraps organized into usable sizes and save money, fabric, thread and time. In this, the long-awaited sequel to *Adventures with Leaders and Enders*, find 12 more scrap quilts that can be pieced in between the lines of other sewing. Each is sure to inspire you to dig into your stash and start piecing.

I am a huge fan of Bonnie's technique. By using the start and the end of the fabric you are already sewing together you can create amazing quilts. The other brilliant thing is it isn't going to take you any extra time to get all the pieces prepared. The thing I also love about Bonnie's books is that you get patterns so that if you are not sure how to put your quilt together you don't need to worry. Bonnie's designs mean that no matter you colour of fabric you'll be able to put one of the designs together. The designs run from more traditional designs to ones with a more modern twist. This book will not only teach you Bonnie's technique it will inspire and motivate you. The templates aren't included but most of the designs use basic squares, triangles etc that you would normally make anyway. Scraps of fabric lying around will be a thing of the past. You'll be surprised how quickly you can make up quilt's from the squares etc. you have made. I truly believe Bonnie's technique of using leaders and enders is a one that all quilters should learn about! <http://www.crochetaddictuk.com/2015/12/more-adventures-with-leaders-and-enders.html> -- Crochet Addict UKAbout the AuthorBonnie K.
