**Emily Chauffe, Elizabeth Chauffe : Kids Show Kids How to Make Balloon Animals** before purchasing it in order to gage whether or not it would be worth my time, and all praised Kids Show Kids How to Make Balloon Animals:

0 of 0 people found the following review helpful. BalloonsBy Trynewthings69This is a great book for someone who has never played with those long skinny balloons that you can hardly blow up but turn into some pretty neat shapes. I have played with them a little and these kids are on the money in describing how things are done and what to expect at times. Like an exploding balloon. I look forward to buying some of the long skinny balloons and I will definitely get the pump. It is worth the money. I don't know how anybody can blow those things up without one. A trick in itself. Have fun!!!1 of 1 people found the following review helpful. Great for kidsBy With two daughters in towInstructional guide worked for our 8 year old (who reads) and our 5 year old (who doesn't). The key trick is to release some air to soften the balloon skin before tying it off.0 of 0 people found the following review helpful. Great book. Very visualBy Magic By CarlosGreat book. Very visual. They did a great job putting the book together. I purchased another book but it had drawings made it more difficult to see. I was surprised that they went to Kent Cummins Magic Camp. I know Kent. Now I know why they did a great job.

After learning how to make balloon animals at camp, Emily and Elizabeth set out to create the ultimate balloon twist book -- for kids, by kids, with every page in full-color photographs. They left out the complicated designs and twists

that required big hands, keeping only the projects that were fun and simple to learn. The book starts with seven-year-old Elizabeth's easiest balloon twists and works up to ten-year-old Emily's more advanced two and three-balloon creations. Included are suggestions on how to buy a pump and balloons, as well as warnings for noise-shy twisters who want to know when a part of the project needs extra care to avoid popping the balloon.
