Bring your favorite dinosaurs back from extinction! Sally Muir and Joanna Osborne have turned back time with their winning collection of 12 new knitting patterns for prehistoric creatures. The creatures include such favorites as a terrifying T. rex, soaring Pterodactyl, tiny (but vicious) Velociraptor, and towering Woolly Mammoth, as well as the more obscure Archelon. Fact files and idiosyncratic descriptions of the various species accompany beautiful photography, making this book irresistible for both knitters and dinosaur enthusiasts.
