Sue Culligan, Long Laura : Knits of Tomorrow: Toys and Accessories for your Retro-Future Needs before purchasing it in order to gauge whether or not it would be worth my time, and all praised Knits of Tomorrow: Toys and Accessories for your Retro-Future Needs:

0 of 0 people found the following review helpful. Good for a beginner By H. M. MCCALLI'm more interested in the cute charted designs than the actual patterns, which are mostly, but not all, straight garter stitch rectangles. 0 of 0 people found the following review helpful. Go Geek Knitters! By Stephanie Hood Excellent book with some really fun patterns. 1 of 1 people found the following review helpful. Patterns are fun and easy to follow By Bridget Graves Patterns are fun and easy to follow. Really good variety on a playful theme. Nothing too embarrassing for public display. The cassette mp3 case is even more hip now than when this book came out.

Celebrate your inner geek with 20 fun and easy projects! The future was once a beckoning landscape where technology would make all things possible. Space travel! Robot maids! Personal jetpacks! Mind-controlling ray guns! With Knits of Tomorrow you can celebrate this ideal world-that-never-was with original and creative projects that will appeal to any techno-geek-or those who knit for them. Knits of Tomorrow features a wide range of projects, all with a technological bent. They are mostly quick and simple-toys, accessories, and home decor items such as rocket-ship desk caddies, circuit-board scarves, and a robot pillow. There are practical projects as well-tablet covers, laptop bags,

and iPod cozies. The playful and fun projects are primarily aimed at an audience with a nostalgic taste for sci-fi, video games, and electronic gizmos past and present.

About the Author Sue Culligan studied graphics and photography at Brighton College of Art. Having been a passionate knitter since childhood, she decided to start her own business designing and selling children's knitwear in a tiny shop in Brighton. Sue also writes the yarn review for Knitting magazine and is the author of The Knitting Stitch and Motif Directory. She now spends much of her time in France, where she runs a bed breakfast and knitting retreat.
