The captions are funny, and the pre-cut slots for photos are great! I'm glad I went with this instead of the 'Selfies' one for this purpose, but the other books are great too! I'm happy with the construction, and the quality of the materials used to make it. I think it will hold up nicely for her move to Colorado.2 of 2 people found the following review helpful. great album!By Customergreat album!! had a lot of fun putting it together. I would suggest going through each page to make sure you have the corresponding pictures to match the captions :)1 of 1 people found the following review helpful.
