Sophie Pester, Catharina Bruns : Supercraft before purchasing it in order to gauge whether or not it would be worth my time, and all praised Supercraft:

1 of 1 people found the following review helpful. For Beginners Advanced Crafters alike!! By Pay it Forward I was absolutely thrilled as I flipped through the 52 projects laid out in this book. There were so many projects I wanted to start all at once. There are projects ranging from easy to hard, quick to weekend worthy, etc. My favorite thing about "Supercraft" is the vast difference between the projects, there are projects to fit every personality. The Crafts range from fiber arts, to paper crafts, sewing with fabrics, jewelry making, painting, embroidery, crochet, and much much more!! In my opinion anyone, even those who aren't necessarily 'crafty' will find something they love in this book. I highly recommend this to beginner crafters all the way to advanced crafters. Happy Crafting! 2 of 2 people found the following review helpful. Worthy of 5 stars By T Klaw Lots of photos of each project and rated by how much experience needed. We want to make everything.
