So I ordered this book called "Table Settings - 100 inspirational stylings, themes and layouts". I thought I was getting a book with 100 different sample table settings, when in fact it may have 100 pictures, but very few table settings. It has pictures of a bowl or a plate. There are pictures of cookies, flowers, name cards, forks and knives, a tassel, and even a photo of some wrapped asparagas. It borders on the ridiculous to

call itself a Table Settings book. There was no way to preview various pages in this book, so I relied on the title to purchase it. I can't tell you how disappointed I am with this book. I have never returned a book before, however, I want to send this one back. 0 of 0 people found the following review helpful. Beautiful Book Depicting Lovely Ideas By Susanna M. S. Dobson This book is filled with fabulous themes and looks for creating ambiance and effect through a table setting. It includes several DIY projects, too. Quite inspiring. 0 of 0 people found the following review helpful. Table Settings By S. Davenport It was not in as good condition as I thought it would be which is a chance when you buy used but mostly I was disappointed in the content. Did not live up to it's claims.

Sharing food is the universal expression of friendship and hospitality, and much of the enjoyment of inviting friends and family to join in a meal is the pleasure of preparing it, making the table look inviting as well as the food delicious. A beautifully laid table provides an inviting ambience that both welcomes the guests and complements the meal. The basic elements of linen, crockery, glass and cutlery are always there, but even the same pieces can be set off in different ways. This new book is full of original ideas and beautiful inspirations to create your own stunning and highly individual table settings.
