Jill Gordon : Take Up Needlepoint (Take Up Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Take Up Needlepoint (Take Up Series):

1 of 1 people found the following review helpful. Book is OkayBy MarvelBook is smaller than I expected, but I found a few good patterns in it. Now I have all of Jill Gordon's books and this one made my collection complete.

Part of a series designed for anyone wishing to start a craft from scratch, this book features needlepoint. It contains ten projects, progressing from easy to more difficult, including a spectacle case, a picture, and a cushion cover.
