Photographs of Steps Big Help!!!By Lorelei HoneywolfI purchased this book in the hopes that it would not only talk about the history of the tea ceremony, but show the steps as well. Far too many books leave out the steps!! This book does both!! It also talks about the various teas used, the preparation needed to make the teas. It also provides suggestions on how to receive the guests. While this book is geared for kids (I'm guessing 5th grade and up) I think adult supervision is necessary. The photographs and explanations are clear and concise, in my opinion. Even the steps on how to fold the cloth for wiping the scoop, is clearly shown.0 of 0 people found the following review helpful.
