1 of 1 people found the following review helpful. Amazing book! By Claire lee This is an amazing book. They have lots of stickers and cute pictures with kind instructions. My boy made his own vet shop following steps in the book and played all day long. Especially making stethoscope was really brilliant. It was so fun to watch all his stuffed animals taken good care of :) Highly recommended!! 1 of 2 people found the following review helpful. Five Stars By Kathy Watson Great book. My daughter loved it. 2 of 2 people found the following review helpful. I am a teacher and I

loved this bookBy gretaI am a teacher and I loved this book. I used it for a take home family fun literacy pack. Students could sign out a bag with pet themed books and activities. This book has a great range of ideas for children to be able to set up their own vet clinics at home. It includes cardboard shapes for making things such as name tags, nurse hats, animal bracelets, etc. There is so much here to help children set up and use their imagination. I do think that children are going to need help and direction with how to use this book. Hours and hours of independent play here! I loved that homemade items are used such as cardboard boxes. I am going to buy more copies of this book as presents.

Got a teddy bear with a tummy ache or a stuffed dinosaur with scraped knees? Never fear! This delightful activity-kit-in-a-book includes everything kids ages 3 to 8 need to set up an amazing vet clinic and enjoy hours of fun playing doctor. There are pop-out signs to mount in the waiting room; adorably illustrated prescription forms, exam checklists, and appointment reminders to fill out; a nurse's cap to punch out and assemble; four sheets of colorful stickers; and more! The book also offers 15 simple and fun DIY projects to make with common household items, including a thermometer made from a pencil, a lab coat made from an old t-shirt, and a hospital bed made from a cardboard box.

Recommended by the 2015 Parents' Choice Award The craft ideas are so clever! I look forward to sharing it with my grandchildren. Martha Stewart A homemade thermometer, patient check-in formsI am so impressed with the clever details, play prompts, and all the included templates and stickers. This book is guaranteed to get imaginations going. Mary Giles, FamilyFun magazine Great for any child with an imagination [Teddy Bear Doctor] provides sticker band-aids and tutorials to make everything needed. A lot of fun and we highly recommend this one! Crafty Moms Share
