**Liezel Norval-Kruger, Tina-Marie Malherbe : The Art of Giving** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of Giving:

Offering ideas for handcrafted, personalised offerings, this book has practical projects packed with information on how to create and present presents and gifts. Taste, smell and touch are pivotal sensual chapters, drawing on our capacity to indulge ourselves through a particular sense. The chapter on wrapping show how to achieve expert finishing touches, and there are solutions to the most awkward of gift shapes. The book has recipes, templates, diagrams, labels and other DIY essentials.
