The Best of Three Books in One! "Long Distance Glider was a top performer." - WIRED Magazine This special paperback edition features the best of the best. Fold long distance gliders, loopers, circlers, and stunt paper airplanes. These models are considered by many critics as the best paper airplanes in the world. As Colonel Dwight says, this is not one of those books with simple models and pull-out printed sheets that fast run out. This book is for the serious paper airplane folder, who can grab the nearest A4 or Letter paper on the go and fold the type of paper plane that makes

heads turn. Folding diagrams are well-placed, and areas considered difficult are accompanied with step-by-step photographs. Now there is no excuse not to impress your friends with these famous paper airplane models which have featured in commercials, competitions, and even in-flight magazines. And right now for a limited period you can download the Paper Aircraft Advanced app that complements this book. So grab that piece of paper and let's fly!

"Impressive fold-only models. Long Distance Glider is a top performer." WIRED Magazine
