Have her other 2 books and just wanted a complete ...By B J FullerHave her other 2 books and just wanted a complete set, as I am an avid chintz collector and use her books for research on patterns.20 of 21 people found the following review helpful. A breathtaking must for anyone interested in ChintzBy A CustomerThis is a stunningly beautiful book packed completely with beautiful photographs. For someone interested in collecting chintz, this is the absolute best thing I've found for learning about the range of patterns. That range is far more extensive than one would expect from the sparse collections of chintz at antique shops and shows. This book will fire the imagination!
