When someone calls a book "complete" I expect them to at least put a disclaimer somewhere visible that says "NEARLY complete". Maybe this book should have been titled "The Nearly Complete Work-In-Progress Bead Resource Book".While I realize that stores do come and go in this industry, I have found quite a few stores (six to be exact, and counting) in the San Diego area that are not in this book... wonderful stores with TONS of beads that have been in business many years in the same location... yet... they are not included in the "The Complete Bead Resource Book".If you're looking for an all-around general listing of bead resources, it would be way cheaper to search the internet, or your local yellow pages.0 of 0 people found the following review helpful. By A Customer I use this book whenever I travel to locate great bead stores and suppliers. It gets better every year. I have used the bead artwork in my advertising. Although I subscribe to many bead publications, I find this one of the most complete and very easy to use.

Latest update of the successful bead resource book giving the most complete listing of bead sources available. Included are retail stores, wholesale, mail order, beadmakers and artists, designers, publications, associations and shows.

I opened a bead store this year and The Complete Bead Resource Book was of enormous help in locating suppliers. -- Jane Bower I thought I knew all the best suppliers until your book came. Your book has saved me thousands of dollars. -- D. Minor This book has become my phone and address book for the bead business. -- Nina Barkley You get better every year! -- Martin Sherman From the Author The Complete Bead Resource Book is a result of years in the business. I started teaching bead classes, opened my own bead store and did consulting in the business for those wanting to open bead stores. The one question always asked is "Where do you find these wonderful beads?" One of the keys to being successful in any business is knowing the best sources for merchandise. This book provides all the answers whether the reader is just pursuing a hobby or is running a business. It took years to accumulate the sources and all the information is available under one cover. About the Author Patricia owned her own bead store for 6 years and has been publishing The Complete Bead Resource for the last 6 years.
