This is about the 5th or 6th cigar book I've read this year and it's worth having if you're into cigars.0 of 0 people found the following review helpful. Great book.By BamaBought it as a gift, and the recipient was thrilled with it. Lots of photos with accompanying data and explanations Makes for an interesting and informative read.1 of 1 people found the following review helpful. nice surpriseBy Kenneth YanceyI bought this book as you might expect, to get a little more knowledge of the cigar world. I got it, and I got it without reading page after page of writing that gets to the point after first going to the moon and back. It is written in an interesting and straightforward manner, so as not to bore, and I really liked that. Not only did I like it, I came away as informed as I hoped I would be when I bought it. If only I could feel this good about everything I buy.
