0 of 0 people found the following review helpful. If you read this book, you are still alive, Embrace life. By T Wilds Must be incomplete book, because I am still alive. This for the worry wart who has too much time on hands. But entertaining, particularly when doing diagnosis on another and to trigger the hypochondriac. 0 of 0 people found the following review helpful. Great present for that 'SPECIAL' someone in your life :) By victoria419 Got this for my hypochondriac ex-boyfriend for Christmas with the "My Dysfunctions Journal". They pair well together, highly recommend. I mean I got a kick out of it... 0 of 0 people found the following review helpful. This was a book my grandson and I saw at ... By Customer This was a book my grandson and I saw at a store at a much higher price.... he found it very interesting....

Hypochondriacs have long had to satisfy their needs for self-diagnosis with medical reference materials written for the

masses, but this revolutionary book is dedicated entirely to the hypochondriac's unique perspective on health. With over 300 deadly diseases profiled, conveniently organized by symptom (real or imagined), even the mildest hypochondriac's fantasy life will be ignited. We're all going to die of something why not choose an ailment that's rare and hard to pronounce? Perfect for friends who complain a lot Includes fascinating spotlights on terrifying medical phenomena Hardcover; 8 x 10 inches; 192 pages; full-color throughout

The Complete Manual of Things That Might Kill You., or a guide to how an innocent body ache of yours could go horribly wrong. Hypochondriacs; that itch you're feeling to read this book? Could be anthrax. --"The Must List: 10 Things We Love This Week." Entertainment Weekly About the Author Knock Knock is an award-winning purveyor of witty books and gifts.
